## Test accessibility with a screen reader: Windows and macOS

### Windows

Use Immersive Reader to listen to your Word document and check whether the content is read in a clear, logical order.

#### How to locate the Immersive Reader

1. Open the Word document using the Word desktop application.
2. Select the View tab.
3. Select Immersive Reader.

4. On the Immersive Reader tab, select Read Aloud.
5. Listen for missing, unclear, or out-of-order content. Make edits as needed.
6. Select Close Immersive Reader to return to the document.
