Workshop 8

Facilitating Student Creation and the Demonstration of Understanding with Google Slides

Jill Plummer, M.Ed.

Middle School Teacher

East Grand School

Danforth, ME

jplummer@eastgrandschool.org

@MrsPlummerEGS 

Workshop Description

Your students watch your Google Slides presentations, but do they create their own? Have you ever wished you could view and comment on a student's work, notes, and responses without having to lug piles of papers or binders around? In this workshop, you will learn about tools and strategies to empower students to create and collaborate on projects that demonstrate their learning and discover the usefulness of digital notebooks: how you can easily keep track of student work, have access to it at any time, and provide detailed feedback to students efficiently and effectively. You will also be provided with additional resources for further study using these great tools.

This workshop is appropriate for teachers of students in grades 6-12.

Presenter Biography

Jill Plummer is currently a middle school teacher at East Grand School in Danforth. Originally from New Jersey, she earned her bachelor's degree at Salisbury University in Maryland in 1990 and just recently completed her master's degree in Instructional Technology at the University of Maine. Jill has been teaching at various grade levels for almost 25 years. She loves helping other teachers develop their knowledge and skills to innovatively use technology in their practice and aspires to create content in the form of a podcast or on YouTube. She enjoys hiking, kayaking, and creating unique jewelry.
