

21st Century - May 24th Final Reflection Questions

As a group discuss these 2 reflection questions. Have one member of your school group summarize your discussions.

Reflection #1: Reflect on one of the presentations and describe several reasons why you liked it.

Blackhawk's presentation was particularly amazing because they created a 3D models of bird's nests. The attention to detail when they focused on feathers and texture in the nests. Additionally, it was a relatable topic for the children which allowed them to become fully engaged in what they were doing.

Reflection # 2: Reflect on the STEAM Ahead over the past year: Summer PD, Monthly PD, CAPE Artists, and Project Development. Brainstorm how you would like to continue next year. Think about this in two ways: remote and in person.

Remote: Summer PD to develop curriculum was hard to follow during the entire year. Children were much more eager to share in the online session.

In person: The materials will be more diverse. It is easier to bounce ideas off of teachers and artists in person. Children are able to share ideas more freely and help their classmates. The creativity can flow better when they are in person.
