

Goal: Identify the major characteristics that define Romantic art (sculptures, paintings, and architecture)

Task Option 1 - Broad: Choose 15 paintings, pieces of literature, and/or musical compositions that were created between the late 18th century-mid-19th century and research their romantic elements. Look at the commonalities they share and create a list of the characteristics that help define the pieces as part of the Romantic era.

Task Option 2 - In-Depth: Choose 5 paintings, pieces of literature, and/or musical compositions that were created between the late 18th century-mid-19th century and research their romantic elements. Look at the commonalities they share and create a list of the characteristics that help define the pieces as part of the Romantic era. Additionally, dive deeper into each chosen piece and explain the deeper meanings/connections to the Romantic movement.

Whether you create a slideshow, Google Doc, or something else to organize your choices, make sure that you have all of the identifiers of the paintings, pieces of literature, and/or musical compositions noted, along with the year it was finished and where it was finished.
