

On Past Lives and Hypnosis

"Sometimes, when I watch these past life hypnosis programs on satellite channels, all the people on those are always ladies-in-waiting or gladiators. They're never monkeys. Why's that?" - Philomena Cunk, Philomena Cunk's Moments of Wonder

A lot of people believe they can access their past lives through hypnosis. And many a hypnotist offer them past life sessions. But. . . are past lives even real? And if they are, can hypnosis help YOU access your past life?

If you're looking for a spiritual hypnotist with deep knowledge on past lives, I have "so good it's like being hugged by a kitten" news for you:

I happen to be a trained spiritual hypnotist. And during that spiritual hypnosis training, I encountered so many past life believers I became an accidental expert on the topic.

"So," you ask, your body trembling in anticipation, "tell me, are past lives REAL? Was I Ghengis Khan? OMG, I was Gehngis Khan, wasn't I, WASN'T I!?!"

Turns out, there's no proof they aren't real.

But, there's also no proof they are. Every case of so-called "evidence" can be explained in everyday ways.

For example, there was a study of 2,500 children who reported having memories of other lives. And in some instances the children claimed to have injuries or birth defects that aligned with the wounds of the deceased.

But everyone knows how easy it is to manipulate a child's memory. And as for the injuries and birth defects; get enough people making claims, some of those claims will be true. Not because of reincarnation, but because of probability.

"Okay, but let's say they are real," you continue, "could I use your hypnosis voodoo to get my inner Ghengis flowin' again?"

I can give you a clear answer on that:

Nope!

Because, as Diana Morgan who plays Philomena Cunk said, everyone who does past life hypnosis is always a lady-in-waiting. Or a gladiator. Never a monkey.

Given how the majority of humanity are peasants, where are the people saying they were peasants in their past lives?

And here's the nail through your testicle:

Hypnotists can CONTROL your past life!

We can set up what someone's past life is before the hypnosis sessions even started. If I want you to be an Ancient Greek, I can make that happen. By talking to you about ancient Greek architecture before hypnosis. Setting up posters of ancient Greece in the room where the hypnosis will take place. And of course, using covert hypnosis to plant suggestions.

Many hypnotists have done this.

So while I'm open to the idea of past lives, I'm not a believer.

Besides, what good would learning about your past life do for you?

“I’d become more confident,” you puff out your chest, “I’d have the Confidence of a Khan and dominate the UNIVERSE!!!”

If you want more confidence, you don't need past lives. You need to clear the emotions gunk strangling your confidence. The Confidence of a Khan will flow when there's nothing blocking it anymore.

And if you want to know HOW to do that, join my newsletter: lawrencebartley.com because confidence doesn't come out of thin air.
