Executive summary

Prototype Test Link:

What was the objective of the test? (If you created a test plan, you can copy and paste it in here.)

Based on the test results, here are the key findings:

1. finding 1
2. finding 2
3. finding 3

Participants

Participant	Occupation	Technical Level	Link to Recording

Table 1: Participant demographics

Test Protocol

Task number	Task summary

Table 2: Description of tasks

After the task analysis, we conducted a post test debrief. Participants were asked about any interesting or unclear behaviours they had observed during the test. They were also asked how likely would they use the (YOUR PRODUCT) based on their initial impression.

Results

Below is a list of our findings listed in the order of score criteria, usability finding, and recommendations.

Scenarios

Scenario 1	What's this scenario for the task you want them to complete?
