PRESS RELEASE

It has come to my attention that a family member of mine has suffered a recent loss as a result of their heart condition in Sydney. I unfortunately must resign from my position as a Green Party List MP in order to look after my family in their final moments with the world.

I will not be taking questions for this. However, I am sure the positive work done by FTMP will continue as he picks the new MP to replace me in these sad times. My ghost will also however be still seen in the Speakers Chambers as it works to ensure the smooth running of parliament.
