

Obstacles to Equality: What elements of society can create resistance to equality or prevent equality from obtaining?

- (1) brainstorm societal elements / behaviours / values / actions / norms that can create resistance to equality. Write them down in the space below

- (2) Now create a chart designed to organize all the above information into categories. For example "institutions" could be a category or "Education" Choose whatever categories make sense to you based on your collection of ideas above! (use 'insert: table')

- (3) Choose 1 category and identify a piece of historical evidence supporting your claim that this category can in fact create resistance to equality. So for example, you may use an example of an old textbook stating that "Slavery was a necessary act to civilize the African" as an example of education perpetuating inequality.
