ADDING (Emil): I have a survey on the use of genAI, and encourage all professional school learners (students, faculty, administrators) to fill it out. This is an IRB-approved/exempt survey. Please share the link: <https://redcap.link/sdngenai2025> . I hope to share results in the future.

**ADDITIONAL ADD:** I am compiling stories about how the current tumultuous times with federal funding and regulations have affected learners in the medical/health professional education pipeline. I'm trying to write an article on it for my organization, but I encourage this as a way to establish community. [This link is a submission form](#) for a moderated bulletin board (Padlet), and all accepted posts will redact any contact information so as many comments can remain anonymous. (The form allows categorization of the person filling out the form and request for anonymity (do not post). I welcome the opportunity to give those stressed in these times a cathartic release.

Let me know (email) how I can share these items more broadly.

What would the added value be for getting this for the whole year? Do we have specific uses that would benefit from this platform beyond the virtual conference?

14:12:28 From courisse to Everyone:

Good question @Peter Vollbrecht
