Premier Volleyball Academy
Player/Parent Agreement

- **Every athlete is guaranteed practice time. Playing time is earned during practice. Coaches will determine playing time based on each player's skill level, position, and work ethic.**
- **Equal playing time at tournaments is not guaranteed. If a player is unhappy with playing time, it is her responsibility to set up a time to discuss this with her coach. This should never be discussed during practice or at a tournament. Parents should refrain from addressing coaches about playing time. This is the players' responsibility.**
- **If a player is going to miss practice, the player must inform the coach as soon as possible. Coaches often put together a practice plan based on how many players they will have at each practice.**
- **Each player is required to be certified and take the training for a referee, scorekeeper, and line judge. These certifications must be done prior to January. At tournaments, each player will be expected to contribute to the work schedule. Early departure from tournaments is not allowed without permission from the head coach.**
- **If an issue/concern arises the player should first address this concern with the head coach. If not resolved, then the club director should be notified.**
