

Is a rural lifestyle preferable to an urban lifestyle?

Affirmative [Rural] : Kumegawa

AD 1 There are variety of work (not find in Urban area)

-some young people don't want those kinds of jobs.

-more variety of jobs in cities.

-those jobs that are not popular.

People living in Urban area works in really stressful environment and don't know how dangerous the nature is.

In rural area, we can work with nature like forest and fishing industry.as you know your life can't be separated with nature.(you eat fish and sit down a wood chair)

in addition, when the big disaster comes, like earthquake, you have to live and protect your family with the knowledge about nature.

AD 2 we can do outdoor activity easily.

-people in cities have access to rural area

an article says 59.9% of Japanese people are interested in outdoor activity.

in rural area, the nature is close to our life.this means that we can do outdoor activity more easily and cheaply.

outdoor activity can keep your health good and make your stress disappear.

by doing so, our life would be better.

1 there is no stress while going to work place(don't need to use train)

-driving to work is also stressful (can't sleep while driving).
-aged people can't drive.

-

4 cheap land price

-we do not need to own a land or a house
-we can live in an apartment and be happy

Negative [Urban]: Ide

DA 1 more job opportunities

-it doesn't matter for people working.

DA 2 diversity, more people to interact -> various/ innovative ideas

-the number of people that you can interact in a day is limited, it will realize in rural area.
use internet.

1 many attractions theaters, amusement parks,

-we have them too.

4 convenience - places to shop, buy daily necessities, public transportation

it cost, and we have to mind the train schedule.

to heavy to carry things you bought.

5 Less unnecessary human relationships -> enjoy being alone

-it can be realized in rural area.
