

Mosyle Mobile Manager: Teacher Self Checkout

Installing Apps

Teacher iPads will have core teacher apps installed on the device. Users now have the ability to choose to install other apps through Mosyle's self-checkout system.

Remember, space is limited on your iPad. Only install apps you will use.

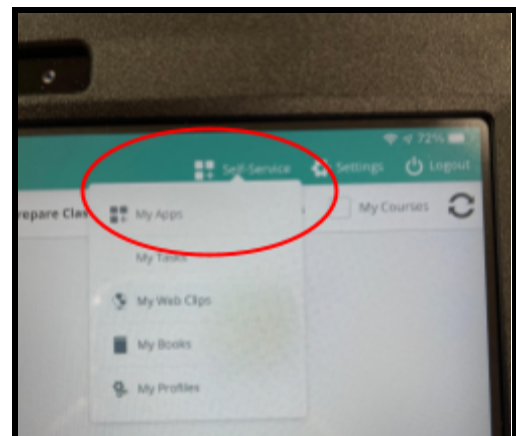

Step 1: Open the Mosyle Manager app.

Step 2: Enter your D70 password.
Tap Confirm.

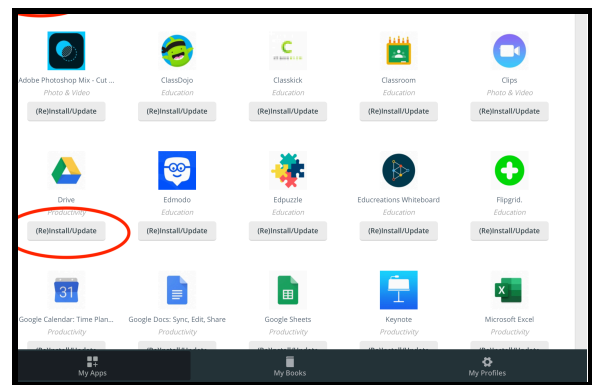

Step 3: In the upper right hand corner, click
Self-Service. Click My Apps

(OVER)

Step 4: Click the install/update button for the apps you want to install. Once you have selected your app(s) of choice, the app(s) will automatically start to download on your device.

Step 5: Close the Mosyle Manager App.

Updating Apps

If an app isn't working correctly, teachers can try to manually update the app. Otherwise, apps will be automatically updated by Mosyle.

Step 1: Open the Mosyle Manager app.

Step 2: Click the install/update button for the app(s) needing to be updated. Apps will begin to update.

Teachers can also update all apps by clicking “update” in the upper right corner.

Step 3: Close the Mosyle Manager App.
