

Pedro Martinez

By: Nate D.

Pedro was one of the best pitchers in the MLB. His number is #45 for the Red Sox. He signed a 65 million dollar contract while he was still playing as a professional baseball pitcher.

Pitching was his best asset. His 97 mph curveball makes batters' knees buckle. His changeup was nearly impossible to hit. He also had a slider, another pitch, that curved in for a strike that was scaring the batter for a strike.

In the summer when he pitched, they would be calling his name Pay-dro pay-dro pay-dro. Paydro never unfocused in the other team's

dugout. He wasn't serious until he was on the mound. He has a sense of humor. But on the mound he was the complete opposite. He is one the best all time pitchers.
