

Art Research Project

Art History, Grades 6-12

Assignment Objectives

- Students will research a famous artist or art movement they are learning about in class.
- Students will work with a Live Help tutor to research and develop their writing piece, and then submit their written work to the Review Center for feedback.

Teacher Instructions

- Assign students an artist or artistic movement they will research and then develop a presentation of their findings. The presentation could include an essay, slideshow, Google Slides presentation, or any presentation method in PDF form!
- This activity is designed to encourage students to research the artist or artistic movement and explore their influences on art.
- Students can use the included graphic organizer as aid in research, to get clarification and feedback, and summarize their thoughts with the help of a Paper Tutor
- After completing the graphic organizer with the Live Help tutor, students will then present their research in the format expressed by the teacher.

Ideas for Use

- Assign in class or as a homework assignment.
- Assign to accompany current topics of class instruction.
- For lesson extension, encourage students to create their own piece of art reflective of the artist's style or artistic movement.
- This can be completed individually, in pairs, or in a group. If implemented in a group setting, one student should be responsible for starting a session with the Live Help tutor to relay information to other group members.

#HowWePaper

We would love to know how this resource worked for you. Please use this [form](#) to provide us with your feedback!

Art History Research Project

Artist _____

Student Instructions

1. Write the artist you were assigned to research.
2. Log on to a Paper Live Help to discuss your understanding of the artist, the influences on their work, and the legacy that they had on art that followed them.
3. Use the graphic organizer below to take notes during Paper sessions. Share information you know and learn with your tutor, and begin developing a draft of this information for your final presentation.
4. When your presentation is prepared, submit it to Paper Review Center for feedback.
