

### **Conversation Starters/Community Building**

- 1) If you had to live in a different time in history, when would it be and why?
- 2) Drop a picture into our (Padlet/Google Classroom/etc) of your favorite dessert.
- 3) What is your favorite show on Netflix right now?
- 4) Who is the coolest person you follow on social media? Why do you think this about them?
- 5) If you could travel anywhere in the world and it would be free, where would you like to visit?

### **Brainstorming Reflections/Idea Cloud Generation**

- 1) No filter, write down everything you are interested in learning more about. No, it doesn't have to be just related to school.
- 2) What was left out of our last lesson that you want to know more about?
- 3) Is there anything we didn't cover this (week/unit/year) you would like to know more about?
- 4) Are there any voices/perspectives we need to include here that aren't present?

### **Process Reflection (during the course of an activity)**

- 1) Set up a set of criteria to measure how you will know your product is what you want it to be (benchmarks). How will you measure if this is a success work product?
- 2) How are you managing your work flow? (digital tools, journal etc.) Is it working? Is there something you would tweak or change?
- 3) Try a timer on your phone to schedule the top 3 activities you need to finish today during our class/today/this week. Do you use these timers often or do have another way you prefer?
- 4) Try [Trello](#) to map out some of the deadlines for this project. Would you use this tool again? Why or why not?
- 5) Pay attention to the timing of your day. When do you notice you have more or less energy? What tasks do you tend to do in the am versus the pm?
- 6) As you near the end of this project, what would you do differently next time? What worked well?
- 7) If you were advising the (class below, ex. juniors) what would you tell them is a MUST for being successful in this project?

### **Product Reflection (at the end of a project/after a summative task)**

- 1) Look back at the benchmarks you established, how do your results measure up?

- 2) What is the highest leverage (most impactful) change you would make if you were to do this work again?
- 3) What are you most proud of from this unit/essay/project?
- 4) Our next unit is on \_\_\_\_\_, we will be studying \_\_\_\_\_ but I can be flexible in how you show me what you know. Would you like to try a (comic book, graphic novel, rap, writing a song, writing a screenplay, making a Tik-Tok video, etc.) to show me you have met the objectives of this unit?
