#### **International Speaker | High-Performance Coach | Facilitator**

My name is Tim Wagner.

I help Hospitality Professionals face the challenges of stress, burnout, and overwhelm. Working with executives, management and hospitality leaders, I take them from frustrated, lost and questioning their purpose to calm, confident, and clarity on their leadership journey.

Traditional employee well-being programs have failed us all.

I present a new, fresh take on helping teams to flourish and grow once more.

I have over 36 years in business and 27 of these as a leader in multiple facets of hospitality. Combined with 17 years as a coach, facilitator, and now an international speaker and certified breathwork guide, I deliver high impact messages through:

- My interactive keynote titled: “The silent crisis in Leadership. How to Spot and Stop the Slide to Burnout.”
- Workshops, masterclasses and coaching from my signature Professional Pointer Coaching Program™, defined by my BREATHE methodology and 7-stage blueprint,
- Stress and anxiety release through Transformational Breathwork techniques.

I aim to help clients re-discover authentic leadership skills, renewed confidence, and sustainable performance outside of the states of stress and burnout.

This is outlined in my e-book “From Burnt-out to All-out in 60 Seconds”, “Bridging the GAP” framework and “The Well-being Curve™”. (Downloaded PDF’s available through my website).

As a Leader in business you are concerned with your teams well-being, performance and mindset. You want them to achieve personal and business success but something is missing in their abilities to deliver a consistent, high end service to the customers.

Contact Tim Wagner to help them discover a deeper connection to their purpose, clearer focus of their values and authentic nature.

In an industry that never sleeps, high-performers carry the weight of teams, expectations, and a never-ending to-do list.

But when pressure replaces passion, stress turns into burnout—and that’s where the real cost begins.

Together we can change that.
