

[Deer numbers keep going up](#) December 7, 2013 Arkansas

, Log Cabin Democrat

... We have over a million deer in the state, according to Arkansas Game and Fish Commission estimates... about a fifth of Arkansas deer are taken by hunters in addition to quite a few thousand that are killed on highways, roads and even streets. And, yes, some hunters cheat by killing deer and not checking them. ... One factor that is encouraging to wildlife managers is that the buck-doe ratio of deer in Arkansas is moving closer to the ideal of 50-50...
