

Privacy Policy for LinkGuard

1. Information We Collect LinkGuard is designed to protect your browsing experience. We only collect the specific URLs (web addresses) that you actively interact with (i.e., when you click on a link or highlight text containing a URL).

2. How We Use Your Information The URLs collected are sent to our secure backend servers temporarily to be analyzed via Threat Intelligence APIs (such as Google Safe Browsing and VirusTotal). We only use this data to determine if the link is safe, phishing, or malware.

3. Data Storage and Tracking

- **Local Storage:** We use browser local storage to save your settings (e.g., whitelisted domains) and a local cache of scanned URLs to improve performance. This data remains on your device.
- **No General Tracking:** We DO NOT track your general browsing history or background activities.
- **No Personal Data:** We DO NOT collect personally identifiable information (PII) such as names, emails, or passwords.

4. Data Sharing We DO NOT sell, trade, or rent your data to any third parties. URLs are strictly analyzed for security threats.

5. Contact Us If you have any questions regarding this Privacy Policy, please contact us at:
