What is it?

A pouch laminator uses a lamination pouch that is sealed on one side. The inside of the lamination pouch is coated with a heat-activated film that adheres to the product being laminated as it runs through the laminator.

What materials can I use?

3-15 mil pouches up to 12 inches in width.

Where can I buy materials?

At the library: \$2 per pouch. Sizes and mils available include: 8.5" X 11" (10 mil); 8.5" X 14" (7 mil); 11" X 17" (5 mil).
