Re: District Supplemental Communication Tool

Good afternoon! As most of you know, we are no longer using Textcaster (Tiger Text) as a district communication tool. We have been using our school data system, TeacherEase, for these communications. We are aware that certain populations in the community can not receive TeacherEase text/email updates based upon security settings in the program.

As a supplemental tool to TeacherEase communications, we have decided to add an additional communication platform for community patrons called Text-Em-All, which will replace Tiger Text. For anyone who is a community member who is not currently receiving the TeacherEase texts, or for anyone who would like to receive a similar text reminder like the old "Tiger Text", you may sign up for the Text-Em-All platform. We will use the platform to send text reminders about school athletics, activities, events, news, etc. We hope this service helps to supplement our current communication systems to provide information to community patrons in an efficient and timely manner.

If you would like to sign up for this text alert please do the following...

Text the word "Join" to 816-281-7060. Once you do this you will be enrolled in the text communication platform. You may opt out at any time. If you have further questions please call WN R-IX at 816-240-2621.

Thank you,

W-N Administration
