The vape sensors in all bathroom areas and the locker room were offline at the start of the school year. They're now working and have already sent staff several alerts. If you're caught vaping at school, your vape and any related items will be confiscated, you'll receive a written citation from local law enforcement, and you'll be enrolled in the school's quit-vaping program. You may also face an out-of-school suspension. If you've been vaping on school grounds, now is your chance to stop.
