

Scaffolding Sheet

Part (A): 4 factors that influence food security ([“What causes hunger” video](#))

1. Availability

-There are a number of factors that impact availability: extreme weather, improper storage, pests and diseases, & the economy.

2. Access

-Food needs to be moved closer to where people live and made affordable.

3. Utilization

-We need people to consume the right kinds of food. We need to nourish the world with real food that has nutrients.

4. Stability

-Food needs to be available and accessible at all times without interruption. It needs to be predictable.
