AUTHOR DECLARATION AND LEGAL COMPLIANCE STATEMENT ON THE USE OF GENERATIVE AI

SUHUF: QUR'ANIC STUDIES AND CULTURE

I, the undersigned:

Full Name: .....
Institutional Affiliation : .....
Email : .....
Title of Manuscript : .....

(hereinafter referred to as "the Author"), hereby make the following representations, warranties, and undertakings to *Suhuf: Qur'anic Studies and Culture* (hereinafter referred to as "the Journal"):

1. **Acknowledgment and Acceptance of Policy**

The Author confirms that they have read, understood, and unequivocally agree to be bound by the Journal's Generative AI and AI-Assisted Technologies Policy, as may be amended from time to time.

2. **Representations and Warranties**

The Author hereby represents and warrants that:

a) The submitted manuscript constitutes original scholarly work and complies with all applicable standards of academic integrity and publication ethics.
b) No portion of the manuscript has been generated, altered, or manipulated by Generative AI in a manner that results in:

- Fabrication, falsification, or misrepresentation of data
- Creation of fictitious, inaccurate, or unverifiable references
- Substitution of independent scholarly reasoning with AI-generated outputs

c) c. Any use of Generative AI tools has been limited strictly to permissible functions, including but not limited to language editing, structural refinement, or technical assistance.

3. **Mandatory Disclosure Obligation**

The Author agrees that any and all use of Generative AI in the preparation of the manuscript has been fully, accurately, and transparently disclosed within the manuscript.

Such disclosure shall include, where applicable:

- The name of the AI tool(s) used

- The purpose of use
- The extent and scope of such use

Failure to disclose such use shall constitute a material breach of this declaration.

4. Full Responsibility and Accountability

The Author expressly acknowledges and agrees that:

a. Generative AI tools shall not be recognized as authors or contributors.

b. The Author retains full and exclusive responsibility for:

- The accuracy, validity, and integrity of the manuscript
- All statements, interpretations, and conclusions presented
- Verification of any AI-assisted content

c. The use of Generative AI does not diminish, transfer, or mitigate the Author's accountability under any circumstances.

5. Confidentiality and Data Protection

The Author warrants that no confidential, proprietary, or unpublished material has been disclosed to any Generative AI system in a manner that compromises data security, privacy, or intellectual property rights.

6. Indemnification

The Author agrees to indemnify, defend, and hold harmless the Journal, its editors, reviewers, and affiliated institutions from and against any and all claims, liabilities, damages, losses, or expenses arising from:

- Any breach of this declaration
- Any undisclosed or improper use of Generative AI
- Any violation of ethical, legal, or intellectual property standards

7. Sanctions and Enforcement

The Author acknowledges that any violation of this declaration or the Journal's AI policy may result in, without limitation:

- Immediate rejection of the manuscript
- Retraction of a published article
- Public notice of ethical violation
- Notification to the Author's affiliated institution(s)

- Temporary or permanent submission ban

Such actions shall be taken at the sole discretion of the Journal.

8. Governing Compliance

This declaration shall be governed by and interpreted in accordance with the Journal's publication ethics policies and internationally recognized standards of scholarly publishing.

9. Binding Effect

By signing this document, the Author affirms that all statements made herein are true, complete, and accurate, and acknowledges that this declaration constitutes a legally binding commitment.
