

Evidence - Students as Lifelong Learners

During the week of April 25 - 30th the Year 7 students started their Rooftop Garden Project. This week was the brainstorming week where they interviewed the members of the TIS community to see if others had any advice, tips, or experience that they could share to help the students prepare. The students interviewed other students, the teachers, the administrators, the office staff, the aunties and the uncles. They used their multi linguistic ability to speak and listen in Cantonese, Mandarin and English, proving that they were **communicators** and a respectful manner of **international mindedness**.

Here are Y7 students speaking to an auntie in Cantonese.

Here is a Y7 student speaking to Y3 students in English

Here is a group of Y7 students speaking to the Chinese teachers in Mandarin.
