

Dear <**INSERT COUNCIL MEMBERS NAME OR IDEALLY THE PERSON RESPONSIBLE FOR ROAD SAFETY ETC, CHECK LINKEDIN / OR LOCAL COUNCILLOR ETC**>,

I've now supported several schools across **TOWN/CITY NAME** with these 'show and tell' style electric vehicle events and it's brought a new level of science/entrepreneurial/design discussion to students so has been truly great, we look forward to continuing this, a great success story for the local authority and schools in my opinion.

I wanted to arrange a discussion with yourself and the council members responsible for children's safety, our road networks and signage in relation to parents idling their car engines outside schools waiting for their children? It's hurting **TOWN/CITY NAME** youngest people and it's something I think the council can champion (via signage and education) which will have a direct impact on our health and educational systems and also showcase how forward thinking the council is. Is this something you can help with?

Regards,

NAME
