

# SAVANT SYNDROME (#)

Savant Syndrome: a condition in which a person otherwise limited in mental ability has an exceptional specific skill, such as in computation or drawing.

\*Savant Syndrome fits into Gardner's concept of intelligence because he believes in multiple intelligences, in which individuals have different skills sets.

---

## Directions:

- **Research someone who has savant syndrome**
- **Write a ½ page “newspaper” article about this individual (size 12-14 font)**
  - **Title Your Article**
  - **Who are they?**
  - **Where are they from?**
  - **How old are they?**
  - **What’s their talent?**
  - **How have they overcome obstacles?**
