

**LAST UPDATED 9/12/2023**

I'm not a fan of making blacklists, but man!! Sometimes setting a boundary isn't enough and doesn't mean people will respect you. I believe everyone has their own journeys to embark on and can change, but I can't be a part of everyone's journey especially if they've hurt me a lot in the past or just have bad faith in me.

**Please do not under any circumstances trade/gift my designs to these people! OR attack/harass them! I'm just putting down a list of people I ain't wanna associate with no more.**

**Nobody on my Blacklist can commission me under any circumstance as well. I wouldn't feel comfortable taking them.**

PLEASE DO NOT SEND ME MESSAGES OR QUESTIONS ABOUT PEOPLE ON MY BLACKLIST!  
Once someone ends up here, it's a bit of a done deal and I have no interest in talking to people I don't know about very personal things.

**● ABSOLUTE BLACKLIST / DNI IF YOU ARE CLOSE FRIENDS WITH THESE PEOPLE ●**

*If you genuinely consider yourself close friends with him/are in his inner circle, please unfollow me right now!*

- **DEATHANDTHEMOON/ DIRTYCOMPUTER/ COSMOTELLURIANZ/ THREEOFSWORDZZ / Whatever Else Associated With Him**

**■ PASSIVE BLACKLIST / GREYLIST ■** - *These people may have hurt me in the past, but I'm just gonna let the passage of time take its course, and wish them to be better/get help in the future. You can be friends with/still talk to them, no tea no shade really as long as you don't try to get me to talk to them again. I think ultimately as humans we can choose to do whatever we wanna do, as long as you're not being iffy behind my back with them ofc and not breaking my TOS.*

**NO ONE ATM!**
