October Maintenance Report

- Entergy has repaired/replaced all of our parking lot and building security lights in the district. The wall pack security lights are the districts responsibility. Whenever these go out I have been replacing those with new LED wall pack lights.
- New Aiphone buzzer entrance systems have been installed at AHS and Goza Middle School.
- We are having extended wait times for certain types of window and door glass due to supply chain issues.
- Nabholz is almost finished with the asbestos removal from the old Peake campus.
