Meeting with students within the INTERADIS project

On October 28, 2021, Dmytro Nikitenko, Andrii Podlevskyi, Krasovska Yuliana and Podlevska Oksana carried out an online meeting with NUWEE student parliament within INTERADIS grant project "International Students Adaptation and Integration" (619451-ERR-1-2020-1-NL-EPPKA2-CBHE-JP). It should be reminded that the project is implemented within the framework of Erasmus+ Capacity Building in the Field of Higher Education and is co-financed by the European Union.

At the meeting, the project participants shared their foreign experience in creating a Students unit, which could be a focal point for the integration of international students into the NUWEE environment.

As a result of the meeting, the initiative to create a student organization, the scope of which would include issues of cooperation with international students, was supported.
