

MERRIMACK COLLEGE

## MCWarrior-Student Device Overview

Merrimack is your home away from home, and we want to make sure you have access to as many of the conveniences you're used to as possible. Our new wireless network is more personal. If you haven't done so already, connect to wireless network, 'Student WiFi Setup' from your phone or laptop to register for your own personal passkey. Your personal passkey is private, so don't share it! With it, you can connect most devices quickly and easily, including Xbox, PlayStation, smart TVs, smart plugs, speakers, LED lights, streaming sticks (like Roku or Amazon Fire Stick), and, of course, most of your phones, laptops, and tablets. However, please note that this is not exactly like home, and there are a few items that are not permitted and should be left at home because they can interfere with connectivity and cause spotty WiFi for those around you.

### Prohibited Devices

- **Wireless Printers:** You may have a printer and connect via USB, but Direct Print is not allowed. Printers are the number one source of WiFi interference in dorms on campus.
- **Google Chromecast**
- **Roku (with RF remote)**
- **WiFi Hotspots**
- **WiFi Routers**
