Unleash Your Inner Defender: Say Goodbye to
Low-Quality, Heavy Rifles and Embrace the Power of
Precision Engineering and Unmatched Reliability with
SLR Rifleworks!

James!

Are you tired of your rifles looking like they're low quality, low durability and heavier than a freight train? Not to mention worrying about when the firearm you purchased for protection will fail?

Do you want a:

- Tough
- Rugged
- Slim and Sleek
- Never Failing

design that will hold up to the beatings no matter how many rounds you put through it?

Do you prefer:

- QUANTITY

- QUALITY

NOW PICTURE THIS!

You purchase a firearm from **SLR Rifleworks!**

You get it home and open the box, immediately looking at that beautiful masterpiece that is a custom **Type III Class 2 BLACK**

Hardcoat Anodized beauty made specifically for you.

- Slim
- Sleek

- Tight Fitting
 - Lightweight
 - Reliable
 - Durable
 - Accurate
 - Customizable
- Precisely Engineered with ADVANCED TECHNOLOGY!

You **practice** a scenario where you clear the house and start from back to front. This new rifle makes it so easy with its maneuverability. Good thing for you going with the ergonomic, reliable, accurate, highly durable and completely customizable option from **SLR Rifleworks**!

Best Regards,

Logan

(Also, here are others' **personal** reviews:)

Duer C. - Feb 1st 2023

Premium rifle. A work of art.

SLR pretty much ruined other rifles for me. The set is so tightly held together. I put a JP Supermatch barrel on mine. It is a laser.

Chris Adams - Aug 15th 2021

SLR B15 Builder Set

Absolutely amazed by the quality of SLR Product. Tightest fit and amazing finish with all of their products. No joke when I received the kit I had to actually use force to separate the upper and lower. I constantly recommend SLR and have since built multiple uppers for my rifle and plan to build many more.

Joe Campbell - Feb 11th 2021

Builders set

Awesome customer service. They honestly called me from their personal residents to ensure the changes that I made were correct. In the middle of this 2020 madness they manufactured and mailed my order to me within weeks. Very impressed.

Lucan Schmidt - Feb 10th 2021

SLR B15 Builder Set

Love these builder sets! The price and convenience of SLRs system where you pick your handrail type/length and cerakote color/pattern is fantastic. Streamlines the whole process to build something top of the line and unique. Plus it comes with an ambi bolt release that is flawless and so many other progressive features. It is also hard to find another company that has more styles and lengths of hand guards. I build a lot of unique barrel length and muzzle device combos that require a specific rail length and SLR has an option for any scenario. Hard to sum it all up in a quick review but I can't recommend this enough!

Jon - Oct 15th 2020

Exceptional

I can't stress enough the exceptional quality and craftsmanship of this set. The fit and finish are excellent! And they aren't kidding when they said it's a tight fit with the cerakote. It's tight! Great service by SLR. The set was sent out much faster than I expected. It really is a great value for what you get. My only knock is that the machining around the mag release makes it slightly harder to hit the release and limits your options when it comes to an oversized mag release.

Art - Oct 9th 2020

B30 builder

Quality is top tier and worth every minute I waited, cerakote just took it over the top. Beyond happy with this builder set.

Parker - Feb 20th 2020

Exactly what I wanted!

The guys at SLR are very responsive and helpful. They make some awesome parts that are solid quality.

Zachary Anderson - Dec 16th 2019

Hands Down, Bar None

This set is worth its weight in gold. Impeccable craftsmanship and even better fit/finish. I would never hesitate to get another set, even though my build was as much as a KAC or SCAR 17, before optics. Buy with confidence and enjoy the beauty/function of master craftsmen.

Unleash Your Inner Defender: Say Goodbye to Low-Quality, Heavy Rifles and Embrace the Power of Precision Engineering and Unmatched Reliability with SLR Rifleworks!

James,

Tired of settling for rifles that feel cheap, lack durability and weigh you down like a freight train? Are you constantly plagued by the fear of firearm failure when it matters most? Imagine a different reality, one where your firearm is built to withstand anything and everything you throw at it.

Introducing **SLR Rifleworks**, the epitome of toughness, ruggedness, and sleek design.

Our firearms never falter, providing you with the confidence and peace of mind you deserve.

Choose **Quality** over **Quantity**

Picture this: You bring home an SLR Rifleworks firearm, carefully unpacking it to reveal a masterpiece. This custom **Type III Class 2 BLACK Hardcoat Anodized** beauty was engineered specifically for you, ensuring a flawless fit and unparalleled performance.

Now, envision this scenario. The adrenaline surges as you approach the front door, the distant voices growing louder. With a sudden force, the door gives way, and you find yourself face to face with intruders. Instead of some out-of-the-box firearm, you have a **SLR RIFLEWORKS MASTERPIECE** standing strong. Slim, sleek, and lightweight, it responds flawlessly to your commands.

As you open fire, there are no jams or failures—only absolute control. The would-be intruders retreat in fear, fleeing your home as you safeguard your loved ones. You can

rest assured knowing you made the right choice with SLR Rifleworks—the pinnacle of ergonomic design, reliability, accuracy and durability.

Elevate Your Defense to the Next Level—Don't Miss Out on the Unparalleled Precision, Reliability and Customizability of SLR Rifleworks Firearms and Products. Experience the Difference Today and Take Control of Your Safety and Security with Confidence!

Best Regards,

Logan

**Unleash Your Inner Defender: Experience Precision Engineering and Unmatched
Reliability with SLR Rifleworks!**

James! Are you tired of your rifles looking like they're low quality, low durability and heavier than a freight train? Not to mention worrying about when the firearm you purchased for protection will fail? Do you want a tough, rugged, slim and sleek design that will hold up to the beatings no matter how many rounds you put through it?

Do you prefer: **QUANTITY or QUALITY?**

NOW PICTURE THIS!

You purchase a firearm from SLR Rifleworks! You get it home and open the box, immediately looking at that beautiful masterpiece. However, you're aware that this custom **Type III Class 2 BLACK Hardcoat Anodized** beauty was made specifically for you so you don't feel worried about any scenario!

Envision this:

You're grabbing your custom built SLR RIFLEWORKS MASTERPIECE! Slim, sleek, tight fitting, lightweight, reliable, durable, accurate, customizable and precisely engineered with **ADVANCED TECHNOLOGY!** You hear deep voices mumbling about whether or not they should go through with it. By this time you start thinking and **BAM!** The door is forced open. You give warning and fire. Giving YOU the true advantage over the men

trying to rob you and your family. They tuck tail and sprint out of your home to try and get away. By this time your wife and neighbors have called the police and they are on the way only to arrive 30 minutes later. Good thing for you going with the ergonomic, reliable, accurate, highly durable and completely customizable option from SLR Rifleworks! That's WHY you buy SLR products! Their precision engineering won't leave you in a sticky situation when you need it the most.
