

Graphing Flowers Task

(SOL 2.15b)

You and a friend go outside and pick 16 flowers. Some are red, some are white, some are purple, and some are yellow.

Graph how many of each you collected.

Use manipulatives or draw pictures to help you sort and graph.

How many red, white, purple, and yellow flowers did you have?

What color flower did you have the most of?

What color flower did you have the least of?
