Privacy Policy for Sand Kings: Pixel Sandbox War
Last updated: October 26, 2026

Soner Sarıökmen (“we”) provides Sand Kings: Pixel Sandbox War (the “App”) as a free game that is supported by ads and offers an optional one-time in-app purchase. This page explains what information is used when you play.

Information We Collect

We do not ask for, collect or store personal information such as your name, email address or phone number. The App does not require an account or registration. Your game saves, settings, discoveries and puzzle progress are stored only on your device and are deleted when you uninstall the App.

Advertising (Google AdMob)

To keep the game free, the App shows banner, interstitial and optional rewarded ads through Google AdMob. Google may collect and use data such as your device’s advertising identifier (IDFA on iOS, Advertising ID on Android), IP address, approximate location, device information and ad interaction data to serve, measure and personalize ads. On iOS, ads are personalized only if you allow tracking in the App Tracking Transparency (ATT) prompt. In the European Economic Area, the United Kingdom and Switzerland we ask for your consent with Google’s consent form, and you can change your choice at any time from the App’s settings (Privacy options). Learn how Google uses data: https://policies.google.com/technologies/partner-sites

In-App Purchases

The optional Premium purchase is processed by the Apple App Store or Google Play. We never receive or store your payment details.

Local Wi-Fi Battles

The 2-player Wi-Fi mode connects only to nearby devices on your local network to exchange game moves. This data is not sent to us or to any server.

Recording and Sharing

When you record a clip, the GIF is created on your device and is shared only with the apps you choose in the system share sheet.

Children’s Privacy

The App is not directed at children under 13 and we do not knowingly collect personal information from children. If you believe a child has provided personal information, contact us and we will help remove it.

Data Retention and Deletion

We do not keep personal data on our servers. Uninstalling the App removes all data stored by the App on your device. For advertising data, see Google’s privacy policy and your device’s ad settings.

Changes to This Policy

We may update this policy from time to time. Changes take effect when they are posted on this page.
