 - Patches Committed/Merged: 22

Kudos to Tiffany Little, Andrea Buntz Neiman, and Elaine Hardy for the nearly 300 bugs that they have updated with official tags or marked Won't Fix because they were old bugs relating only to the XUL client. All of this work serves to greatly improve findability.

Status of Bugs highlighted for testing in last meeting

1. <https://bugs.launchpad.net/evergreen/+bug/1333893> -- Retain empty bib records (cat.bib.keep_on_empty) not honored with volume transfers -- this would be very fun to test, because you'd get to delete a bunch of things!

Tested & signed off

2. <https://bugs.launchpad.net/evergreen/+bug/1724965> -- Copy Buckets missing TCN column -- make sure that some missing columns have been added to the copy buckets interface

Tested and sent back for further work

3. <https://bugs.launchpad.net/evergreen/+bug/1739293> -- Merging records holdings displayed by default -- this bib record merge-related bug has a lot of "heat"

Tested, signed off & committed to 3.2 and above

4. <https://bugs.launchpad.net/evergreen/+bug/1780639> -- Add MARC bibliographic field 758 to the MARC editor -- support for a sweet new linked data-related field

Tested, signed off & committed to [3.next](#)

5. <https://bugs.launchpad.net/evergreen/+bug/1789982> -- Adds the ability to create items without a price in the web client

Tested & signed off

6. <https://bugs.launchpad.net/evergreen/+bug/1803584> -- Clear button does not work for Holdings Template Editor

Tested and sent back for further work

7. <https://bugs.launchpad.net/evergreen/+bug/1734775> -- Multiple copies will not display in item status (list)

Tested, signed off & committed to 3.1 and above

-Bug needs feedback!! Josh working on Item List when uploading item lists. Please review and provide insight. <https://bugs.launchpad.net/evergreen/+bug/1798187> & <https://bugs.launchpad.net/evergreen/+bug/1820292>

-Look for bugs with the "needsdiscussion" tag and contribute - for cataloging-specific bugs, add a "cataloging" tag, if it's missing
