

# EXPECTATIONS AND CONSENT CONTRACT

Read this document and initial each statement indicating your agreement to meet the expectations outlined for the Chicago Builds program.

## STATEMENTS OF UNDERSTANDING

I understand that participation in the Chicago Builds program is an honor and a privilege. Program participants will be removed from the program for non-compliance in meeting the agreed upon expectations.

I understand that enrollment and participation in Level I courses does not guarantee admission into Level 2 courses. To achieve promotion into the next level of courses in the Chicago Builds programmatic sequence, a student must demonstrate proficiency in a specific set of skills or knowledge, essentially proving they have mastered the required abilities outlined as "[learning competencies](#)" within a course or program; this often involves passing assessments or completing tasks that directly test those competencies.

I understand that Chicago Builds is an IL Works Pre-Apprenticeship Program Site and offers the Master Builder program with City Colleges of Chicago. Participants will attend classes at the Chicago Builds location for part of the school-day and receive technical training in Carpentry, Electricity, Heating and Cooling (HVAC), Welding, and General Construction.

I commit to follow all program rules and behavior expectations set forth by Chicago Builds and adhere to the [CPS Code of Conduct](#). Failure to comply will result in removal from the Chicago Builds program. Program participants are also expected to [sign the SCC receipt](#) and exhibit appropriate behavior by following all school rules and Board policies. The Student Rights & Responsibilities is adopted by the Chicago Board of Education each year to help create a safe and supportive learning environment for all students and school personnel.

Parent/Legal Guardian initials

I understand that possession of a valid driver's license is a common requirement of the workforce, unions, aptitude tests, and other postsecondary providers. In alignment with this and to ensure that program participants are able to fully participate and maximize on postsecondary options, it is an expectation that by the conclusion of the Chicago Builds program each student participant will get a valid driver's license or a driver's permit.
