About the firm

Genesia Ventures is a venture capital firm focused on early-stage startups in Japan and Southeast Asia. Since its inception in Dec 2016, Genesia Ventures has invested in over 100 companies in Japan, Indonesia, Vietnam, Singapore, and the US. We invest in various sectors: SaaS, marketplace, Media, Finance, Insurance, Real Estate, Healthcare, Medical, Travel, Education, Manufacturing, Construction, HR, Agriculture, Sports, Retail, Entertainment, etc. In the Vietnam market, Genesia has proactively invested in more than 10 companies.

Role:

We want a committed, ambitious intern to assist our investment team with due diligence and startup evaluations. The intern will work closely with Genesia's investment team and get experience with the investment process, including pitch meetings, product demonstrations, customer interviews, market research, and financial analysis. The intern will be responsible for working on individual projects and providing the investment team with research, findings, and market insights.

The position provides a front-row seat to all facets of early-stage venture capital and is ideal for a person who is eager to learn. Numerous essential abilities will be quantitative and qualitative in nature. Education and training, both official and informal, will be offered.

This internship is reserved for undergraduate students only.

Benefits:

You will understand how Venture Capital investment works by sitting alongside the team in startup-up meetings, from first presentations to monthly status reports

You will have an opportunity to establish an incredible network by talking with other prominent investors, CEOs, and key ecosystem stakeholders
