

Member Spotlight - Parik

3 Fun Facts

A yoga freak regularly practicing for the last 40 years!

Enjoys traveling around the world - so far been to 10 different countries and planning for many more.

Very explorative in nature and always enjoys learning new things - the last best thing has been 10% credit Spread.

Background

Parik is 52 years old, born and brought up in India, lived and worked there most part of his life but relocated to the UK in 2001. He has been living in the UK since then with his wife and daughter. He is a computer science engineer and has his MBA. He has been working as a software professional for the last 30 years. His wife works in a school, and his daughter is pursuing a degree in medicine.

Trading Journey

He started investing in the stock market 20 years ago. However, his trading journey started only recently in 2019 with index and currency trading after obtaining some expensive training. It did not go that well as it was a roller coaster ride with some mixed and inconsistent results. It was very stressful too while working full time because it's not easy to work and be glued to the screen. Finally, he discovered Austin's 10% Credit Spreads Inner Circle which he initially tested by paper trading. After trying for a month, when he gained enough confidence with the strategy and saw consistent positive results, he started placing live trades in April 2023. He has been trading for the last two months now and is extremely happy to see his account consistently growing. He is so lucky to have found Austin's 10% Credit Spreads program - a brilliant strategy that one can follow and make some real money consistently with while pursuing their full time career without being stressed all the time.
