Subject: Uncover The Truth

All Documents I have available will be posted on here. Something is wrong with the M.L.D.P, I know it. I don't know if Shadow Night is in on it, we must find out. Help me uncover the Truth.

These 3 documents are public, they will give you a rundown on what the M.L.D.P is.

713-324-482 - Subject: The M.L.D.P
900-929-349 - Subject: The M.L.D.P Council
189-341-974 - Subject: Shadow Night

Even Private Documents on the M.L.D.P system can be tracked. I cannot stay here and work on these file's as it would log me getting in and somepony would eventually check this for security leaks, which this is. I have set up a program that will hack into file's however it is not a easy progress and can take a week to decrypt a Redacted or Secure file.
This is why I need you. A file will pop up here each time the program is done. I need you to judge if this is an important file and help solve any puzzles it relates to. Some file's might show no need until another one is released, or a older one can help solve it. I must go now, I will check back soon on your work, Good luck.
