

FNAF Bug Reporting Tool Documentation

Overview

The FNAF Bug Reporting Tool is designed to help you report any issues or bugs you encounter while playing the game. Your feedback is invaluable in helping us improve the gaming experience. Follow the steps below to report a bug effectively.

Steps to Report a Bug

1. Click on the Report Icon

Locate and click on the **Report** icon situated in the top left corner of the game screen.

2. Fill in the Bug Report Form

Provide as much information as possible about the bug. The more details you include, the easier it will be for us to understand and fix the issue.

Information to include:

- **Feedback Type:** Choose the appropriate feedback type based on your issue:
 - **Bug Report:** Use this option if you encounter a technical issue or something that does not work as expected.
 - **Feedback:** Select this if you have suggestions or comments about the game that are not related to technical issues.
 - **Performance Issue:** Choose this option if you experience low framerate, stuttering, freezing, or other issues related to the game's performance.
- **Subject:** Provide a brief summary of the bug.
- **Your Message:** Describe the bug in detail. Explain what you were doing when the bug occurred and what you expected to happen versus what actually happened.
- **Email Address (Optional):** Enter your email address if you would like to be contacted for further information.

3. Add a Screenshot

Take a screenshot of the issue. You can add and edit the screenshot directly in the bug report form. To add a screenshot:

- Click on the **Add Screenshot** button. It will automatically capture the current screen of your game.

SEND YOUR FEEDBACK!

FEEDBACK TYPE: Bug Report (dropdown)

SUBJECT: Type your subject here...

YOUR MESSAGE: Type your message here...

EMAIL ADDRESS (OPTIONAL): Type your email address here... (optional)

We will only use this information to discuss troubleshooting with you, and will not use or distribute their contact information for anything outside of this specific bug reporting function.

Tips for Effective Bug Reporting

- **Be Specific:** Provide as many details as possible about the bug.
- **Stay Clear:** Use clear and concise language to describe the issue.
- **Prioritize Bugs:** If you encounter multiple bugs, prioritize them based on their impact on the game and report the most critical ones first.
