Used Rubrics	Rubrics are grading criteria for students and can be added to assignments, graded discussions, and quizzes.	• Instructure Instructor Guides: Rubrics (Instructure Community)
Created Rubrics	In Canvas you can create, edit, and delete rubrics in your course. Note: Rubrics cannot be edited once they have been added to more than one assignment. When you delete a rubric, Canvas will remove it from all associated assignments in the course and remove any existing scores and assessments given using the rubric.	• How do I manage rubrics in a course? Added a Rubric	You can add new rubrics to your course. Once you create a rubric in your course, the rubric is saved in your course for future use. Note: You cannot reorder rubric criterion after they are added to a rubric.	• How do I add a rubric in a course? (Instructure Community)

Added a Rubric to a Test	You can add a rubric to a quiz to help students understand expectations and how you intend to score their submissions. Note: You cannot use a rubric for grading in quizzes since scores are calculated based on the number of points assigned to each quiz question. You cannot add a rubric to a practice quiz or ungraded survey.	• Instructure Instructor Guides: Rubrics (Instructure Community)
Used a Rubric to Grade a Submission	If you added a rubric to an assignment and want to use it to calculate a grade, before you begin grading, verify you have selected the "Use this rubric for assignment grading checkbox" when adding a rubric to an assignment.	• How do I use a rubric to grade submissions in SpeedGrader? 	Note: If you do not select the rubric specifically for grading, you can still use the rubric to evaluate an assignment but the score will not update automatically.
