**Write True or False in your answersheet:**

When a child enters school, he will learn many different kinds of skills. For example, he will learn to speak correctly, to read well, and to behave properly. One of the most important skills that he must acquire is good handwriting.

There are two main ways in which the English language is written by hand. The first form is called printing. It looks much like the letters in this book. The letters have simple lines or curves. They are not connected. The second method of writing is called cursive. Cursive letters are slanted to one side. They are usually connected. Printing is usually learned before cursive writing.

Each person has a unique cursive writing which is difficult to copy exactly. For example, it is difficult to forge a person's signature on a check or credit card bill. Some people believe that your handwriting reveals a lot about your personality. The study of predicting a person's character or personality from handwriting is called graphology.

Bad weather comes in many different forms. One kind of bad weather is the tornado. It is one of the most destructive storms that we have on the earth.

A tornado is a long cloud which comes down from the sky. It is shaped like a funnel and consists of wind which whirls around and around extremely fast. In fact, the wind can reach a speed of more than nine hundred kilometers per hour. Weather scientists are unable to know exactly when a tornado will occur. Fortunately, the tornado is not usually very big and it does not last long.

There are about two hundred tornadoes annually in the United States, but in some years there are many more. Tornadoes that occur over water are called waterspouts

On October 21, 1978, Australian pilot Frederick Valentich, age 20, took off from Melbourne and (23) \_\_\_\_\_ towards a small island. It was the young man's first solo night over water. It was a still, clear evening, and from his Cessna aircraft Valentich had a perfect (24) \_\_\_\_\_ of the sky above and the sea below. Shortly after taking off, Valentich reported to flight controllers in Melbourne that he was being followed by a UFO. "It's a long shape," he reported, "with a green light, sort of metallic like, all shiny on the outside". A few minutes later, he told the controllers, "That strange aircraft is hovering on top of me again." After that Valentich stopped talking. For the next fourteen seconds the traffic controllers heard a strange ringing sound. Then silence. Valentich and his plane never reached the island, and no (25) \_\_\_\_\_ of him or his aircraft was ever found. Several (26) \_\_\_\_\_ of the public report seeing strange phenomena in the sky over Melbourne that night. A planet is a body in space that revolves around a star. There are nine planets in our solar system, and these nine planets travel around the sun. The names of the planets are Mercury, Venus, Earth, Jupiter, Saturn, Uranus, Neptune, and Pluto. Planets travel in orbits around their stars. All of the planets of the solar system revolve in elliptical orbits. In other words, their orbits are like large, flat circles. The time that it takes a planet to make one revolution around the sun is called its year. The Greeks were the first people to recognize and give names to some of the planets. The word planet comes from a Greek word meaning wanderer. If a person wanders, this means that he goes from one place to another and does

not have a home. The Greek thought that the planets “wandered” in the sky. However, modern scientists can predict the movement of the planets very accurately

The country is more beautiful than a town and pleasanter to live in. Many people think so and go to the country for the summer holidays though they cannot live there all the year round. Some have a cottage built in a village so that they can go there whenever they can find the time

English villages are not all alike, but in some ways they are not very different from each other. Almost every village has a church, the round or square tower of which can be seen for many miles around. surrounding the church is the churchyard where people are buried.

The village green is a wide stretch of grass, and houses or cottages are built round it. Country life is now fairly comfortable and many villages have water brought through pipes into each house.

Most villages are so close to some small town that people can go there to buy what they cannot find in the village shops.

The weather is not beautiful all of the time. Perhaps you can remember a day when bad weather made you afraid. One kind of bad weather that scares many people is called a thunderstorm. This is what happens when there is a thunderstorm. First, you see a sudden flash of bright light. A few seconds later you hear a loud rumbling sound. This quick flash is called lightning and the loud sound is called thunder. Lightning is colorful , but it can cause serious problems. Lightning is electricity that is moving very rapidly. It may be moving between a cloud and the ground, between two clouds, or between two parts of the same cloud. The lightning heats the air around it. This hot air expands, or get bigger, and it causes the air to move in waves. The air waves pass you in a series, one after another. For this reason, you may hear many rumbles and not just one sound

Switzerland is a small country in central Europe. The total land area of this tiny country is only 15,941 square miles (41,288 km<sup>2</sup>). The estimated population of this European nation in 1984 was 6,392,000.

Because the nation is so small, you might think that there is only one national language. However, you would be incorrect because there are three official languages. They are German, French and Italian. As a result, Switzerland has three official names: Schweiz (in German), Suisse (in French), and Svizzera (in Italian). All national laws are published in these languages.

The three official languages plus Romansh are the four national languages spoken in Switzerland. If you look on Swiss coins or postage stamps, you will not find a name for this

country in any of the national languages. Instead, you will find the word Helvetia, the Latin name for this country.

\_\_\_\_\_ 29/ German, French and Italian are three official languages in Switzerland .

... and so I have watched your program for years and have always enjoyed it. In fact it's one of the few programs which is also suitable for children and I know that many families like ours watch it together. However, last week I was very disappointed and also very angry that no warning was given at the beginning of the program that what was going to be shown was unsuitable for children. It is quite unnecessary to show close-up pictures of people who have been murdered. I know it's not real blood but children don't always realize this and my children were very frightened. There is also no need for people to use all sorts of bad language. Children very quickly copy what they hear and swear words and such like are the very things parents don't want their children to use. Newspapers and news programs are full of all the terrible happenings in the world and I think we can expect television to provide us with an escape from reality. I don't know whether you actually enjoy unpleasant and shocking scenes but since last week I know that I for one will watch the series again and I hope that more viewers like me will feel the same and simply switch off their sets.

\_\_\_\_\_ 29/ The writer was very upset what she saw last week.

\_\_\_\_\_ 30/ The writer wants television to offer programs she can watch with her family.

The radio is one of the wonders of modern inventions. It is a novel system of sending news like telephone or telegraph but without wires. Marconi, an Italian scientist invented the radio. In 1896, the first wireless message was sent across Penrith and Weston through apparatus he invented. The receiving sets catch the sounds, which are then broadcast. The more powerful a receiving set is, the greater it can catch broadcast sound from a long distance.

The invention of the wireless or the radio is a wonder in this world. One can know everything instantly through a radio set. Programs from distant countries can be heard promptly. The radio is also a source of amusement and entertainment. Besides, news and messages, there are entertainment programs like music, dialogues and educational items for children.

ir pollution is a serious problem in many cities. Motor vehicles, factories and other sources create so much air pollution that it may hang in the air like dirty fog. Air pollution threatens the health of the people who live in cities. City wastes cause water pollution when they are poured into the waterways. These wastes kill fish and make some areas unfit for swimming. In addition, many large cities have difficulties in disposing of their garbage. The amount of garbage grows each year, but places to put it are quickly filling up. Citizens, governments, industries, scientists, and business people must work together in different ways to gradually reduce pollution. For example, most cities have introduced recycling programmes.

## TEST 38

### I. Read, then answer the questions below

Mozart, who was born on January 27, 1756 in the Austrian city of Salzburg, was neither the first nor the last child prodigy, but he was certainly the greatest. He was born into a moderately prosperous family where his unmatched musical genius made itself known extremely early. Mozart began learning to play the harpsichord at three and his earliest known work was composed in 1761 when he was five, the age at which he also first appeared in public. From the age of six, when his father took him on the first foreign tour, Mozart toured the courts and musical centres of Austria, Germany, France, England, Holland, Switzerland and Italy. It has been calculated that Mozart spent almost a third of his short life - he died at the age of 35 - travelling. As Mozart matured, he continued to tour and give concerts. Mozart also wrote a lot of operas. His first opera, *Mitridate, Re di Ponto*, was performed in Milan when he was 14, and it was the first of many successes in the theatre.

1. How rich was Mozart's family?

### Question II. Read the letter and answer the questions

Dear Mom,

This is just a quick note to tell you how the holiday is going.

We're staying in a nice hotel in a quiet part of town, so you can imagine how we feel. As you know, this is a small city, and the people are very kind and friendly. We have had some good weather since we got here, so we are feeling very happy. We have seen some of the beautiful sights and a few museums, and we thought they were very impressive. Yesterday we decided to go for a swim, and we went to a nice beach where the water was blue and clean. Last night, we had a delicious meal in a wonderful restaurant. The food and services were excellent. When the bill came, we could hardly believe it, as it was so cheap. As our hobbies are sightseeing and swimming, we enjoyed the holiday so much.

Anyway, I'd better stop, but I'll write again soon.

Love,

Mary & John

Feng Shui means 'wind and water' and it is based on an appreciation of the relationship between people and the environment. It involves changing the design of your living or working space to improve your fortune For instance, soon after a Hong Kong millionaire moved his business to a new skyscraper, his business began to do very badly. He immediately called in Feng Shui experts. They told him that because his new office block was round, it was like a huge cigarette, and all the energy was burning off through the roof. They said that the only thing he could do to prevent this loss of energy was to build a swimming pool on the roof. The millionaire followed their advice, and his business immediately started to do well.

In recent years, Feng Shui has become popular in many western countries, where companies such as B&Q have started to seek advice from Feng Shui experts. Before his store was opened, Brian Ingliss, the manager of one of B & Q's stores in Britain, consulted a Feng Shui expert. The expert advised him to create a lot of free space around the store. Brian followed the advice, and within a year, the store was the most successful B&Q store in the country.

1. What kind of relationship does Feng Shui concern?

## Multiple choices

U

Upon the creation of the United States, one of the core concepts on which the hopes for the new democracy were pinned was the ideal that its citizens would be *enlightened individuals* with clearly articulated rights and the opportunity for individual achievement and education. It was believed that in a free nation where the power belongs to the people, the commitment to education defines the progress of that democracy and is the catalyst for future progress. This core value has not only stood the test of time but has also grown in importance. In this new Information Era and international economy, education is an increasingly vital commodity, a precursor of potential success and a driving force of change. It is important to recognize, however, that we approach education today differently than in the past, partly because the kinds of jobs people had didn't require the kind of basic education and specialized training that is often required in the workforce today. In the 1950s, for instance, only 20 percent of American jobs were classified as professional, 20 percent as skilled, and 60 percent as unskilled. Today, our world has changed. The proportion of unskilled jobs has fallen to 20 percent, while skilled jobs now account for at least 60 percent of the workforce. Even more important, almost every job today increasingly requires a combination of academic knowledge and practical skills that require learning throughout a lifetime.

**1: Education is defined in this passage as a driving force of change because \_\_\_\_\_.**

- A. without education, no changes could have happened in American society so far
- B. the government of the United States want to drive social changes in their own ways
- C. education has helped to bring about and orient most changes in the American workforce
- D. any American citizen who wants to change his driving licence must be very well-educated

**2: The passage shows the percentage of jobs that require higher training in the US \_\_\_\_\_ between the 1950s and now.**

- A. has remained the same
- B. has changed dramatically
- C. has been reversed
- D. has changed slightly

**3: The phrase "*enlightened individuals*" in the first sentence most likely means "people who \_\_\_\_\_."**

- A. always appear brilliant-looking in public
- B. have often been well-exposed to light
- C. have acquired an adequate level of education
- D. bring light to anywhere they go

**4: In order to become a good American citizen today, in the author's point of view, any individual must \_\_\_\_\_.**

- A. know well all his/her rights and be ready to grasp his/her opportunity of success in life
- B. study carefully the history of American educational and vocational systems even since their creation
- C. understand thoroughly the combination of academic knowledge and practical skills
- D. move actively forward in the new Information Era and international economy with a prestigious diploma

**5: Which of the following titles would be best for the passage?**

- A. Education and Jobs in the Past and at Present in the United States
- B. The Significant Role of Education in American Citizens' Careers
- C. Academic Knowledge and Practical Skills in American Professions
- D. Recent Changes of Educational and Vocational Systems in America

## TEST 48

### I. Read, then do the alternation below:

Sometimes you know things about people the first time you see them, for example, that you want to be friends with them or that you don't trust them. But perhaps this kind of intuition isn't as hard to explain as it may seem. For instance, people give out body language signals all the time. The way you hold your body, head and arms tells people about your mood. If you hold your arms tightly at your sides, or fold them across your chest, people will generally feel that you are being defensive. Holding your head to one side shows interest in the other, while an easy, **open** posture indicates that you are self-confident. All this affects the way you feel about someone.

Also, a stranger may remind you of a meeting with someone. This may be because of something as simple as the fact that he or she is physically similar to someone who treated you well or badly. Your feelings about a stranger could be influenced by a smell in the air that brings to mind a place where you were happy as a child. Since even a single word can bring back a memory such as that, you may never realize it is happening.

1. What does the word "**open**" in the passage most closely mean?

- A. Unrestrained.    B. Relaxed.    C. Confined.    D. Unlimited.

2. What influences your impression of a person you meet the first time?

- A. Intuition.    B. Familiarity.    C. Knowledge.    D. Feeling.

3. What one feels about a stranger may be influenced by something that \_\_\_\_\_.

- A. strengthens one's past behaviours    B. reminds one of one's past treatment  
C. revives one's past memories    D. points to one's childhood

4. What does the second paragraph discuss?

- A. Meanings of signals one implies towards a stranger.  
B. Factors that may influence one's feelings about a stranger.  
C. How people usually behave to a stranger.  
D. Factors that cause people to act differently.

5. Intuition described in the passage can be explained by means of \_\_\_\_\_.

- A. styles    B. languages    C. patterns    D. behaviours
