

Anoka Ramsey Community College (ARCC) at MVHS

Anoka Ramsey Community College (ARCC) at MVHS is an agreement with Anoka-Ramsey Community College, students take Early College courses at Mounds View during the regular school day from credentialed District teachers who have partnered with an Anoka-Ramsey Community College faculty mentor. There are occasional opportunities for students to visit the Anoka-Ramsey Community College campus to participate in Early College campus activities.

To earn college credit in a dual enrollment course, students must earn at least a C average on the ARCC grading scale and demonstrate proficiency in all essential outcomes. The credits and grade earned are recorded on a student's official Anoka Ramsey Community College transcript, and may be transferred to colleges and universities
