The Fabric of Reality Shifted or Overlapped with Other Realities. Many people, a LOT of People experience what they are now calling the Mandela Effect, whereby they remember thing that are just not true in this reality.

I studied the Mandela Effect today, and WOW. What Reality am I in?

I remember Jiffy peanut butter, Oscar Meyer, Charles Schultz, the Berenstain bears, Oreo Double Stuff, Legos, Muhammed Ali's Death, Anheiser Busch, Evil Kneivel, Captain Crunch, Fruit Loops, sketchers, life is like a box of chocolates, Luke - I am your father, it's a beautiful day in the neighborhood, if you build it they will come and hundreds more of these examples I have found today.

I did not know that they don't exist in the reality that I am in now. It is a very VERY odd feeling as my memory is VERY good. I did not know they changed and remember them the other way, CLEARLY remember.

I always say and have for decades, If you build it they will come. It's been a business motto I have used over and over and told to perspective clients, to those looking to build a ministry, a building, businesses and so many other things.

I, and so many I have known have always said mamma always said life is like a box of chocolates. Well according to a video below, check it out at the bottom of the post, those sayings never existed.

I have a photographic memory and can bring up the things that are examples such as the Berenstain Bears and well all of the examples that I am familiar with I can bring up the picture in my mind, my photographic memory.

I thought some of the stuff like Jiffy peanut butter was a brand change, a label change. I did not know that it never existed as I know for certain it did.

I studied the Mandela Effect and what others are seeing, and I find it very interesting. The veil is lifting. Your Thoughts and Beliefs Create your Reality.

We have Shifted Dimensions.

The Controls over us have been Lifted and we can see and remember the Parallels.

The Mandela Experience / Effect / Syndrome

Experiencing different timelines with people, and events at same time seemingly.

alternate memories

~

The Mandela Effect is a theory of parallel universes, based in the idea that because large groups of people have similar alternative memories

The Mandela Effect is a theory of parallel universes, based in the idea that because large groups of people have similar alternative memories about past events. Advocates of the theory claim that for these collective experiences to be true, the fabric of reality must have shifted at some point in the past, and that therefore not only do parallel, inhabitable universes exist, but that we are constantly switching between them.

How many of us come here, ALL of Us?

Websites and Posts

Bible Scripture, so profound, we have all known the Lion and the Lamb from the beginning of our lives, in all our bible stories, in **Isaiah 11:6**, and now you go to your bible and it says the Wolf and the Lamb and the internet says the Lion and the Lamb never existed and is a misquote by many. How can this be? Clearly we are now in a different timeline or reality.

Nelson Mandela Didn't Die in Prison, and Why it Matters

<http://consciouslifeneeds.com/nelson-mandela-didnt-die-prison-matters/1168775/>

"I wonder just how many people have been locked away as insane or been driven insane by a Mandela Effect Event (MEE). A person that experienced a MEE of such a major part of their life or memory did not fit in with this world could in fact lose their mind. You wake up one morning and you find your self living in a different house or driving a different car. Or you live in New York and do not see the Twin Towers. They were there yesterday but you learn all about 9/11 for the first time almost 16 years after it happened. Or it may not be something that big just a hundred small things all at once. How and could the human mind handle this? Or would it fail? I am not saying that every one locked up as insane is a victim of a MEE but I have to wonder how many

that are? Even just one would be one too many. To lock up a sane person and treat them as insane would be a torture beyond imagination. It would not be long until they were insane."

We Live in Multiple Timelines ALL at the Same Time. What timeline or experience we have, based on the potential that is there, is all about our thoughts. Our thoughts create the timelines in which we move into, live in, exist in.

Movies such as Instersteller, the Matrix, Frequency, Tomorrowland and other movies and information regarding many, if not all timelines existing at once and that change in one timeline can effect change in another timeline.

In the Movie Frequency both father and son remember both timelines, the other people involved in their lives and surroundings only remember the one timeline. Interesting things to think about.

Lot's To Think About, most Importantly Choose the Reality you Want. Talk to your Higher Self.

Shifting Dimensions / the Great Shift - We have moved into another dimension. This is a good thing and NOT to be feared in any way. We jumped realities as the old one is collapsing or carried out war or destruction of some kind. We are moving from reality to reality collecting versions of ourself, merging our multi-selves who are in multiple lives and realities and we moving into higher and higher consciousness each time we move into another reality. It is happening slow, though some of us are experience a very profound change and find the differences odd, as is to be expected. Some feel fear and feel it is happening fast. Have Faith as it is of the Light not the Dark. You have raised your consciousness and are moving realities because you had the potential for the next level of consciousness.

Make sure that CHOOSE, and that you Discern. You are changing often based on your thoughts. Your thoughts are determining which reality you move to and or experience. ~

ASTRONOMY

Yes Folks Earth is Moving, Traveling. Our Sky has changed, we are traveling. It is Ok. Learn about all this stuff and don't fear it, it's ok.

This guy is a bit fearful, especially of CERN, however, I know it is suppose to be and meant to be, still I find the Pleaidians stuff and astronomy interesting, what a joke though thinking it is CERN and that somehow Prime Creator was duped by some man made Machine. And going to Sue concern, come on, we came here for this ASCENSION, it's all LIGHT AND GOOD.

Pleiadians are Closer. Orion Belt changed. Interesting Video on The Mandela Effect and Such Things, with cussing and of course his take on New Earth and Old Earth, Discern. Lot's of Good information.

Don't be scared of any of this. It is of the Light. We are ascending, moving to our rightful place in the Galaxy. We are NOW in the Place in the Galaxy we were meant to be.

This guy is intense, however, I think he lost children in the shift. Like there is no birth or marriage records of them. This Video is mostly about Astrology, and ya the F word he loves.

the Pleiades is closer and that is how it was suppose to be, they are in in our Universe, so is Orion. This is a Good Thing. But YES Earth has Moved. We are all New Earthers, some have just not woke up

I don't fear CERN, I don't Fear any of it. I don't believe in the Rapture, Armageddon or any End of Time. I believe Death is an illusion, a Veil. We don't Die. That said, to understand more of all this, you must understand Galactic History, why we are here and that this is the release of control, the Light has Won. We are Sovereign now in the Universe. WE will see changes as those who have controlled us have lost control.
