Dallas, TX, December 10, 2018 — The business world has seen many changes developing around self-starters and entrepreneurs over the past decade. This change has ushered in the urgent need for personal and business coaching from experts to help business owners and entrepreneurs grow their businesses past the roadblocks of a startup company. David Hall from Dallas, TX is a successful entrepreneur and business coach. His recently developed The Breakthrough Coaching Program launched in January 2019 and promises personal and business oriented breakthroughs for those finding themselves out of time and out of funds but with larger goals. .

The Breakthrough Coaching Program is a combination of personal or life coaching and detailed business planning. The personal coaching centers around identifying mental blocks that affect your productivity and strategizing solutions. Creator David Hall's background is in accounting and finance. Due to this high-level of experience, David's program offers attendees detailed and expert-level financial planning and goal setting.

"I find that entrepreneurs spend so much time tackling every tiny aspect of their businesses that self-care and eagle-eye focus on finances tend to get bypassed in favor of "putting out fires". This is no way to live and certainly no way to grow your business. My program fuses personal growth and specific business planning that refocuses business owners to the most important things for growth and success. We are seeing clients' double their incomes in one year and freeing up more time to enjoy their lives. It's truly remarkable and every entrepreneur or practicing business owner in Texas and Oklahoma will benefit from the program we have scheduled to premiere in January" said David Hall, CEO of The Breakthrough Coaching Program.

"If you're a business owner, and you're an entrepreneur, and if you're serious about taking your business and your life to the next level, you've got to get coaching from David Hall. " said Michael Butler of Dallas' Beyond Publishing.
