

Optional Chromebook Insurance

San Dieguito Union High School District is pleased to offer optional device insurance to our families.

A family can choose to purchase insurance annually for each student. Families purchasing device insurance will be able to return their device to the District and receive a replacement device at no charge. The cost for this optional Chromebook insurance will be as follows:

- Families will pay \$42/year, per student. Current insurance being offered will provide coverage from October 4, 2021 to August 15, 2022.

Families that choose to not purchase insurance may need to replace a device that is broken, in the same manner that a damaged textbook requires replacement. Repair costs are for damages beyond normal wear and tear and are based solely on the cost of parts.

- The insurance enrollment period will be until October 31, 2021.
- Insurance covers the student** and their assigned Chromebook (including assigned loaners).
- A police report will be required for any stolen device(s).
- Some examples of 'normal wear and tear' include: keys with fading print, worn down trackpad stickers, batteries no longer holding a charge.
- Some examples of beyond 'normal wear and tear' include missing keys, missing or peeled back trackpad stickers, cracked screens, damaged power adapters.
- Insurance Forms - [English](#) ~ [Spanish](#)

The following table shows the repair or replacement costs based on damage type or scenario.

Damage Type/Scenario	Cost without Insurance	Cost with Insurance
Lost/Stolen Chromebook	\$360	\$0
Broken Screen	\$170	\$0
Broken Keyboard	\$85	\$0
Device Non-Functional; Non-Standard Use (e.g. beyond normal wear and tear)	Variable; Based on Parts	\$0
Device Non-Functional; Standard Use (e.g. normal wear and tear)	\$0	\$0
