

NESTOR Spring Workshop and Consortium Meeting

October 24th 2025 - San Carlos de Bariloche, Río Negro, Argentina.

Activity		Session topics
8:30 – 9:00		Welcome Reception.
9:00 – 10:00	Invited talk	· Atomic Force Microscopy and Magnetic Force Microscopy (AFM+MFM): sensing the nanoworld. Jaime Santoyo Salazar.
10:00 – 11:00	Invited talk	· To be confirmed.
Coffee break		
11:30 – 13:30	Keynote talks	· Atomistic Computational Simulation Tools for Understanding the Surface Reactivity of Nanoparticles from a Microscopic Viewpoint. V. Sánchez. · EPR Characterization of Nanozymes. - To be confirmed. · ROS generation and scavenging. Basic principles. - To be confirmed. · Biological applications of nanozymes. - To be confirmed.
13:30 -14:30	Lunch	
14:30 – 16:30	Interactive Workshops	1. Design rules for catalytic nanoparticle synthesis. 2. Tools for Physical characterization 3. Nanozymes and Environment
16:30 – 17:00	Coffee break	
17:00 - 19:00	POSTER SESION	
17:00 - 19:00	NESTOR PROJECT MEETING (restricted to Partners of the Consortium)	
CLOSING
