

Term	Definition
Evolution	
Fitness	
Common Descent	
Adaptation	
Fossils	
Paleontologist	
Homologous Structures	
Vestigial Organs	
Artificial Selection	
Natural Selection	
Survival of the Fittest	
Genes	
Niche	
Speciation	
Reproductive Isolation	
Adaptive Radiation	
Divergent Evolution	
Convergent Evolution	
Analogous Structures	
Genetic Drift	
Gradualism	
Punctuated Equilibria	
Mass Extinction
