

In the first module, we learned vocabulary about the classroom. In this module we'll extend out a level and work on themes related to the university: classes, majors, and locations in higher education.

As you've no doubt noticed, one of the most important concerns of university life is time management. This module will give you the tools to talk about schedules — seasons, months, days, and dates — in Spanish.

As always, here are some songs to set the mood for the module— scroll through the titles and see if you can guess what they have in common. If any of the songs grab your attention, click play to listen.
