

# Why the WPO is not an actual peace organization and about how Chuggingtonson is a manipulator as a whole

## Part 1: The WPO Scandal

The WPO was formed as a peace organization; promoting peace all over the world. It's in it's name.

First offense:

That\_geography\_nerd • 4h  
president of CHUGGINGTONSON

The fully mobilised chuggingtonson military attacks the Norse rike and calls upon all WPO members. It started when a sub was located off of the south nz island. Also protecting Jeff's Austrian legion in Europe

**I thought the WPO was a PEACE organisation.**

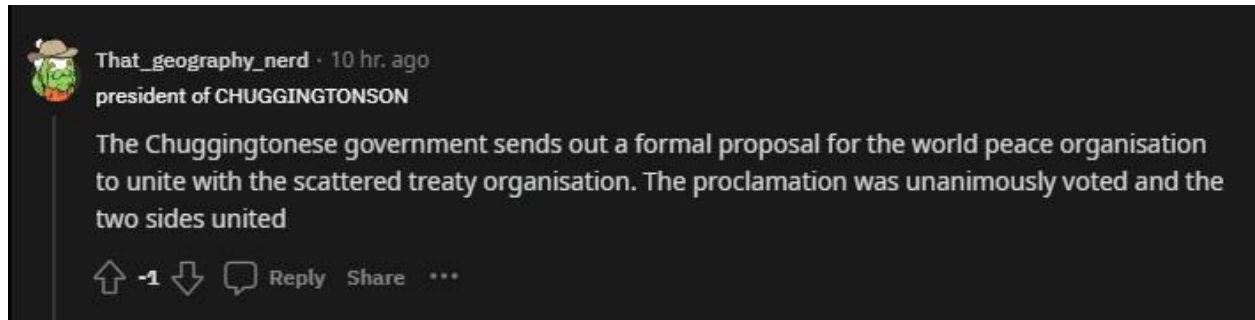

It would've already been bad if the leader of the WPO declared war, but he called on every WPO member. This means WPO was never for peace at all?

A real Peace Organization would NEVER declare war, even in bad situations.

The WHOLE THING declared war???

It's like Chuggingtonson just forgot the WPO was for peace.

## Second offense:

You can't just call a proposal to unite without asking the other SIDE.

This is ridiculous!

RIDICULOUS!!!!!!!!!!!!

I just can't believe it; i'm out of words

He DIDN'T EVEN ASK THE WPO EITHER?!?!?

THIS IS JUST HORRIBLE

OH MY GOD.

## Part 2: So what is Chuggingtonson trying to do?

Manipulate.

Get everyone on his side and the people who don't or the people who pose a "threat" get absolutely demolished. And by threat we mean people who he has a slight grudge with.

He didn't even INTERACT with NORSKE RIKE and he DECLARED WAR ANYWAYS

JAL Doesn't NEED protecting.

He's doing this for HIS OWN BENEFIT.

### Part 2.5: the CSTA

The CSTA is a new peace organization that opposes the WPO.

Because the leader of the WPO is a lying fucking bastard.

We guarantee that the CSTA is 100% peace-oriented.

Collective Security and Trade Alliance terms: An attack on any member will prompt response from all members, nobody has greater power over the organizations and all decisions are decided democratically, noncompliant members will be expelled, the organization may collectively attack an external nation without an attack on member states through democratic negotiation, and member states' borders are open to each other.
