Parts required	Replacement cost
Emergency service	After-hours pricing
Furnace age	Older systems may cost more
Labor time	Complexity of repair

Frequently Asked Questions

1. Do you offer furnace repair near Amber St?

Yes. Markham Heating & Air Conditioning provides professional furnace repair services for homeowners and businesses near Amber St in Markham. Our experienced technicians perform a thorough **onsite inspection** to identify the problem and recommend the most effective repair. We also service **air conditioner** systems, making us your trusted provider for year-round heating and cooling solutions.

2. Is same-day repair possible?

Yes. We offer **same-day furnace repair** whenever scheduling allows. Our technicians arrive prepared to diagnose the issue and complete many repairs during the initial visit. If your home also requires **air conditioner repair**, we can assess your cooling system during the same appointment whenever possible.

3. What are the signs my furnace needs repair?

MARKHAM HEATING & AIR CONDITIONING SYSTEMS SINCE 1983

Your furnace may need professional attention if you notice:

- Cold air coming from the vents
- Strange banging, rattling, or squealing noises
- Weak or uneven airflow
- Frequent cycling on and off
- Higher-than-normal heating bills
- Burning or unusual odors
- The furnace won't start or stay running

A dirty **Furnace filter** can also restrict airflow and reduce your system's efficiency, so replacing it regularly is an important part of keeping your furnace operating properly.

4. Do you repair all furnace brands?

Yes. Our technicians repair most major furnace brands and models, including gas and high-efficiency furnaces. We also provide **air conditioner repair** and recommend routine **seasonal tune-up** services to help keep your entire heating and cooling system running efficiently throughout the year.

5. Do you offer emergency repair?

Absolutely. We provide emergency furnace repair services for unexpected heating failures. Whether your furnace stops working overnight or during extremely cold weather, our team responds promptly to restore heat and protect your home's comfort.

6. How long does furnace repair take?

Most furnace repairs are completed within one to three hours after an **onsite inspection** and diagnosis. If replacement parts are needed or the repair is more complex, we'll explain the expected timeline and keep you informed throughout the process.

7. Is diagnosis included?

Yes. Every service visit includes a comprehensive **onsite inspection** and diagnostic assessment. Once we've identified the issue, we'll explain the recommended repair, provide an upfront estimate, and answer any questions before beginning the work.

MARKHAM HEATING
& AIR CONDITIONING SYSTEMS
SINCE 1983

8. Are older furnaces repairable?

In many cases, yes. Older furnaces can often be repaired if their major components remain in good condition and replacement parts are available. To help extend the life of your heating equipment, we also recommend enrolling in a **maintenance plan** that includes routine inspections, **seasonal tune-up** services, and regular **Furnace filter** checks. Preventive maintenance can improve performance, increase efficiency, and reduce the likelihood of unexpected breakdowns.
